NEW CLIENT QUESTIONNAIRE

Our goal is to customize your interiors to reflect your personal style. Don't know what it is? We'll help you develop it.

To begin the design process, I need to gather information about what you like and dislike, your preferences, and lifestyle. The more I know about you, the easier it is for me to create a design plan that fits within your personal style, budget & timeline. My goal is to maximize what you already have & create an interior space that embodies you.

This questionnaire will aid in our discovery process and be the first step in creating a personalized design plan. I look forward to working with you.

Please fill out this questionnaire as completely as you can. Email me your room photos and any inspiration photos.

MEET DARA

I have always had a love for design. Growing up in a household with a mother who was an art teacher and had a flair for design herself, I spent many weekends of my childhood going to art shows, reading design magazines, and crafting. As a child of the 80s, I loved painting my Keds, bedazzling my jean jackets, and fringing my shirts. Essentially, I love making things beautiful and unique. That set the foundation for my love of design. Later in life is where my love of designing interiors began.

I strive to create things (and spaces) that are beautiful and unique. As a mom of two young children now, I also make sure that my designs are livable. I realize the importance of combining beauty and function. Depending on your lifestyle and needs, I will carefully curate designs and furnishings that cater to you, your style and your daily life.
